

Press Statement – 22nd March 2020 – Preston Windrush Generation & Descendants UK (PWGD UK)
Our Response to the Windrush Lessons Learned Review by Wendy Williams

Preston Windrush Generations & Descendants UK are an advocacy and support group for people affected by the Windrush scandal to apply for their correct legal status and compensation. PWG&DUK also assist people in applying to the EU settlement scheme.

The long-awaited Wendy Williams lessons learned review into what were the causes of the scandal were published yesterday making thirty recommendations. PWG&DUK sees this as a useful start to reform the policies and culture of the Home Office that has caused so much harm to British people who came to help rebuild Britain are the second World War.

However, we believe the recommendations do not go far enough. The laws which the Home Office were enforcing, the 1971 and 2014 Immigration Acts, that brought about the scandal are still on the statute books and being implemented so that people are still losing their jobs.

PWG&DUK will continue to work with the Home Office Windrush State Holders Advisory Group alongside Windrush Defenders, Windrush National Organising Group and others to implement the recommendations and encourage people affected by the Windrush scandal to come forward to check their legal status and claim compensation if eligible at www.wdlegal.co.uk
